California State Association of Counties
Coalition of Alcohol and Drug Associations
County Behavioral Health Directors
County Behavioral Health Directors Association of California
County Drug & Alcohol Administrators

SUBJECT: Guidance for behavioral health programs regarding ensuring access to health and safety during the COVID-19 public emergency; Update: flexibilities related to California's emergency Executive Orders are rescinded as of June 30, 2021

REFERENCE: [DHCS COVID-19 Response website](#)

PURPOSE: Provide guidance on concrete steps counties and providers should take to minimize the spread of COVID-19, ensure ongoing access to care, and provide guidance on flexibilities given the [Section 1135 waiver](#) granted by the Centers for Medicare and Medicaid Services (CMS), effective March 15, 2020.

Update: The Governor's Executive Orders N-43-20 and N-55-20 end effective 6/30/21.

BACKGROUND: DHCS is issuing guidance to counties and Medi-Cal providers to assist them in providing medically necessary health care services in a timely fashion for patients impacted by COVID-19. DHCS was given authority to grant flexibility for certain requirements through Executive Order (EO) N-43-20 and N-55-20, which end June 30, 2021. See [DHCS COVID-19 Response website](#) for information notices related other

Behavioral Health
MS 2710

Phone: (916) 440-7800

Internet Address: <http://www.DHCS.ca.gov>

Executive Order flexibilities related to Driving Under the Influence (DUI) Programs, Alcohol and Other Drug (AOD) programs, and residential and inpatient mental health treatment facilities.

6/16/20: This Information Notice provides updates on changes to COVID-related flexibilities in the following areas:

1. Behavioral health services via telephone and telehealth
2. 5150 evaluations and 5151 assessments
3. Waiving signature requirements for psychiatric medications
4. Additional time to complete counselor certification requirements
5. Adapting oversight requirements to prioritize patient needs and accommodate workforce challenges
6. Emergency enrollment in Medi-Cal for mental health providers
7. Access to prescription medications
8. Alcohol and other drug (AOD) residential and outpatient treatment facility flexibilities
9. Temporary suspension of Mental Health Services Act (MHSA) program onsite reviews
10. Process to request fee reductions or waivers
11. Canceling meetings and gatherings to prevent COVID-19 transmission.

POLICY

DHCS encourages counties and providers to take all appropriate and necessary measures to ensure beneficiaries can access all medically necessary services while minimizing community spread during the COVID-19 public emergency.

1. Behavioral health services via telephone and telehealth.

Updated 6/16/21: *DHCS will provide updates to the telehealth policy, including information about whether telephone (audio-only) may be used for clinical assessments, pending final decisions by the legislature. See [DHCS telehealth policy](#) for details.*

Telehealth is not a distinct service, but an allowable mechanism to provide clinical services. The standard of care is the same whether the patient is seen in-person, by telephone, or through telehealth.

Services delivered via telehealth and telephone are reimbursable in Medi-Cal managed care (physical health care),¹ Specialty Mental Health Services

¹ DHCS has also released [guidance](#) to Medi-Cal Managed Care Plans regarding COVID-19.

(SMHS), the Drug Medi-Cal Organized Delivery System (DMC-ODS),² and the DMC State Plan system.

Where telehealth is already allowable, DHCS does not restrict the location of services via telehealth. Patients may receive services via telehealth in their home, and providers may deliver services via telehealth from anywhere in the community, outside a clinic or other provider site. DHCS does not impose requirements about which live video platform can be used to provide services via telehealth.

Specific guidance for providers regarding HIPAA and telehealth is available from the external resources listed on DHCS' [Telehealth Resources](#) page.

The U.S. Department of Health and Human Services Office of Civil Rights (HHS-OCR) has clarified that they will use enforcement discretion and will not impose penalties for noncompliance with the regulatory requirements under the HIPAA Rules when providers use telehealth in good faith during the COVID-19 public health emergency. The HHS-OCR guidance states that providers can use any non-public facing remote communication product that is available to communicate with patients. Specifically, providers may use popular applications that allow for video chats, including Apple FaceTime, Facebook Messenger video chat, Google Hangouts video, or Skype to provide telehealth. However, public facing applications such as Facebook Live, Twitch, TikTok, and similar video communication applications should not be used in the provision of telehealth. Additional guidance regarding HHS-OCR's HIPAA enforcement during the COVID-19 public health emergency can be found on [HHS-OCR's webpage](#).

[SAMHSA has also issued guidance](#) on 42-CFR Part 2 compliance during the emergency.

The following executive orders expire June 30, 2021:

[The Governor's Executive Order N-43-20](#) relating to administrative penalties for health care providers specified in Health and Safety Code section 1280.17, related to safeguards of health information, as applied to any inadvertent, unauthorized access or disclosure of health information during the good faith provision of telehealth services as a result of the use of technology that does not fully comply with federal and state law during the COVID-19 emergency period.

² For more information, see [MHSUDS IN 17-045](#).

Providers should complete service documentation in the patient treatment file in the same manner as in-person visit. [The Governor's Executive Order N-43-20](#) states that the requirements specified in Business and Professions Code section 2290.5(b) related to the responsibility of a health care provider to obtain verbal or written consent before the use of telehealth services and to document that consent, as well as any implementing regulations, are suspended during the COVID-19 emergency period.

Services provided by telephone or telehealth may be provided and reimbursed by the following programs;³ details for each program are described below:

- ***Drug Medi-Cal Organized Delivery System:***
 - March 1, 2020, through June 30, 2021, the initial clinical diagnostic assessment, determination of medical necessity, and level of care can be conducted by telephone. These services may be provided by telehealth, or in-person, independent of the emergency.
 - Licensed providers and non-licensed staff may provide services via telephone and telehealth, as long as the service is within their scope of practice.
 - Certain services, such as residential services, require a clearly established site for services and in-person contact with a beneficiary in order to be claimed.
 - However, California's Medicaid State Plan does not require that all components of these services be provided in-person. (An example could include services via telephone for a patient quarantined in their room in a residential facility due to illness).
 - DMC-ODS individual and group counseling services that a provider determines to be clinically appropriate can be provided via telehealth and telephone.⁴
 - Reimbursement for telehealth and telephone services is now mandatory for DMC-ODS counties, based on DHCS' new telehealth policy. Modifiers are required, effective 11/1/2021:
 - Televideo service: 02 GT
 - Telephone service 02 UB

³ See [State Plan – Targeted Case Management](#) and [State Plan – outpatient specialty mental health services and Drug Medi-Cal](#) for more detail.

⁴ Group counseling sessions may be conducted via telephone and telehealth if the provider obtains consent from all the participants and takes the necessary security precautions, in compliance with HIPAA and 42CFR Part 2.

- Store and forward (e-consult in DMC ODS) 02 GQ
- **DMC State Plan:**
 - Individual and group counseling services can be provided via telehealth and telephone in DMC State Plan counties.⁵
 - Licensed providers and non-licensed staff may provide services via telephone and telehealth, as long as the service is within their scope of practice.
 - Modifiers are required, effective 11/1/2021:
 - Televideo service: 02 GT
 - Telephone service 02 UB
 - Store and forward (e-consult in DMC ODS) 02 GQ
- **Specialty Mental Health Services:**
 - Any other service, including an individual or group service,⁶ that can be provided by telephone or telehealth is reimbursable in all counties (examples include mental health services, crisis intervention services, targeted case management, therapeutic behavioral services, intensive care coordination, intensive home-based services, medication support services, and components of day treatment intensive, day rehabilitation, adult residential treatment services, and crisis residential treatment services).
 - Licensed providers and non-licensed staff may provide services via telephone and telehealth, as long as the service is within their scope of practice.
 - Certain services, such as crisis stabilization, day rehabilitation, day treatment intensive, crisis residential treatment services, and adult residential treatment services, require a clearly established site for services and some also include in-person contact with a beneficiary in order to be claimed. However, not all components of these services must be provided in person.⁷ (An example could include services via telephone for a patient quarantined in their room due to

⁵ Group counseling sessions may be conducted via telehealth and telephone if the provider obtains consent from all the participants and takes the necessary security precautions, in compliance with HIPAA and 42CFR Part 2.

⁶ Providers are still required to follow relevant privacy laws to ensure patient privacy protections.

⁷ See Title 9, California Code of Regulations, Sections 1840.318, 1840.320, 1840.332, 1840.334 and the California's Medicaid State Plan: Supplement 1 to Attachment 3.1-A – Targeted Case Management (TCM) Services for Medi-Cal Beneficiaries that Meet Medical Necessity Criteria for TCM Covered as Part of the Specialty Mental Health Services Program; Supplement 2 to Attachment 3.1-B - Rehabilitative Mental Health Services (Medically Needy); and Supplement 3 to Attachment 3.1-A - Rehabilitative Mental Health Services (Categorically Needy)

illness).

- Reimbursement for telehealth and telephone services is now mandatory for DMC-ODS counties. Modifiers are required, effective 11/1/2021:
 - Televideo service: 02 GT
 - Telephone service 02 UB
 - Store and forward (e-consult in DMC ODS) 02 GQ

See [Mental Health Services Division Medi-Cal Billing Manual](#), page 87-94 for more information.

- ***Mental Health Services Act (MHSA)***: Counties may use MHSA funding to pay for services provided via telephone or telehealth as long as the services provided are consistent with the MHSA requirements and are not able to be covered by any other source of funding. Counties that use MHSA-funded services as match for Federal Financial Participation must follow the guidance for telehealth services provided and reimbursed with Specialty Mental Health Services Funding.

More information on telehealth can be found on the [DHCS telehealth website](#).

2. 5150 Evaluations and 5151 Assessments (updated June 16, 2021)

WIC 5150 evaluations and 5151 assessments may be performed by authorized providers face-to-face via telehealth as per WIC 5008(a). This may include releases from involuntary evaluation and treatment, as appropriate. These services are billable to Medi-Cal regardless of whether they are provided in person or through telehealth as long as the individual has Medi-Cal coverage for the service and all Medi-Cal requirements are met.

3. Waiving signature requirements for psychiatric medications Update June 16, 2021: flexibility expires September 30, 2021.

The Executive Order N-55-20 waives the requirement for patient signatures for psychiatric medication consents.⁸ Instead, counties shall allow a patient's verbal consent (in lieu of written consent) for receiving psychiatric medication(s), due to the difficulty of collecting signatures when services are provided via telephone or telehealth.

4. Additional time to complete counselor certification requirements Update 6/16/20: Flexibility expires September 30, 2021

California Code of Regulations, Title 9, §13035(f)(1) requires AOD registered counselors to obtain certification as an AOD counselor, from a DHCS recognized certifying organization, within five (5) years of the date of registration.

In order to ensure a sufficient workforce of AOD registered counselors during the emergency period, under the authority of Executive Order N-55-20 DHCS is suspending this requirement to allow AOD registrants impacted by the COVID-19 emergency to have an additional 3 months after the end of the COVID-19 emergency to complete their certification requirements.

5. Adapting oversight requirements to prioritize patient needs and accommodate workforce challenges Update 6/16/21: Flexibility expires June 30, 2021

The COVID-19 public health emergency may increase demands at clinical facilities during a time when staff resources may be strained. Staff may need to plan, respond, and adapt due to the changing environment, including staff or patient illness and quarantine.

DHCS encourages counties to reach out to their DHCS liaison if there are any concerns about meeting any state-mandated regulatory requirements or DHCS reporting requirements and deadlines due to the impact of COVID-19.

DHCS strongly encourages counties to minimize administrative burden and waive any additional county oversight and administrative requirements that are above and beyond DHCS and/or federal requirements during the state of emergency. Examples

⁸ Cal. Code Regs., tit.9, § 852.

include converting on-site audits and site reviews to virtual desk audits, postponing audits and provider reviews that are not time-sensitive, deferring additional training or reporting requirements, and waiving minimum requirements for clinical hours per week that are above and beyond DHCS requirements (e.g., for residential facilities), to accommodate for staff shortages.

6. Emergency Enrollment in Medi-Cal for Specialty Mental Health Service Providers Update 6/16/21: Flexibility expires June 30, 2021.
DHCS will resume on-site inspections.

Pursuant to section 1135 of the Social Security Act (1135 Waiver) CMS has waived the enrollment requirement for SMHS providers to undergo an onsite visit per Code of Federal Regulations (CFR), title 42, section 455.432(a). Moreover, part of the enrollment process for SMHS providers includes the requirement for the provider to obtain a fire clearance prior to the onsite visit, as specified in the county Mental Health Plan (MHP) contract. As stated under the MHP contract, Exhibit E, page 12 of 16, Paragraph 7(B), DHCS may use policy letters to provide clarification and instructions to its contactors regarding implementation of mandated obligations pursuant to State and federal statutes and regulations.

In light of the many challenges counties are facing due to the COVID-19 crisis, including the inability to obtain a fire clearance, the DHCS is waiving the Medi-Cal Certification requirements for an onsite review and a fire clearance, during the approved 1135 Waiver period.

During this time, providers may be certified using the streamlined procedures outlined below:

- For initial certification of county-owned and operated providers, the County Mental Health Plan (MHP) shall submit an Application for Medi-Cal Certification (DHCS Form 1736), which includes a copy of the head of service license and Program Description for the provider.
- For re-certification of county-owned and operated providers, where the MHP conducts the onsite review, the MHP shall submit a MHP Recertification of County-Owned and Operated Providers Self-Survey Form (DHCS Form 1737), which includes a copy of the head of service license.
- For re-certification or change of address of county-owned and operated providers, where DHCS conducts the onsite review, i.e., juvenile detention center, crisis stabilization unit, day treatment and/or adding medication room(s), the MHP shall submit all updates via email to include a head of service license and Program Description, as needed.

- For initial certifications and re-certifications of contracted providers, the MHP shall submit a Medi-Cal Certification Transmittal (DHCS Form 1735).
- For DHCS tracking purposes the MHP shall note “COVID-19 Emergency Medi-Cal Certification” on whichever form is being submitted to DHCS for processing, i.e., DHCS Form 1735, 1736 or 1737.
- MHPs following these procedures will be granted enrollment for 60 days, retroactive to March 1, 2020.
- Please note that the 60-day emergency Medi-Cal Certification may be extended in 60-day increments in accordance with the 1135 waiver.
- Should the 1135 Waiver be extended, no further action will be required on behalf of the approved provider.
- Upon conclusion of the 1135 Waiver, the MHP will be required to submit any outstanding documentation and meet all certification requirements, including the requirement for onsite review and having a valid fire clearance.
- The MHP will have 180 days from the conclusion of the 1135 Waiver to conduct the onsite review and to submit any outstanding documents, including a current fire clearance.
- If due to unforeseen circumstances a county is unable to meet the 180-day time frame the county may submit a request for an extension of up to an additional 90 days.
- All required documentation and email communication must be submitted to DMHCertification@dhcs.ca.gov.

7. Access to Prescription Medications

Since many individuals who receive Medi-Cal Specialty Mental Health and Drug Medi-Cal Services are prescribed medications to address their mental health and substance use disorder needs, counties and providers should refer to the DHCS [Fee-for-Service Pharmacy Benefit Reminders and Clarifications](#) web page for guidance in response to questions regarding dispensing policies governing the Medi-Cal fee-for-service pharmacy benefit as it relates to COVID-19.

Medi-Cal allows prescribing and dispensing of 100-day supplies of medications, including certain controlled medications. Early refills are allowed, as long as 75% of the expected duration has occurred.

8. Alcohol and Other Drug (AOD) Residential and Outpatient Treatment Facility Flexibilities Update 6/16/21: Flexibility expires June 30, 2021

DHCS will grant flexibility to Residential and Outpatient Treatment Facilities to allow ongoing access during the emergency. See Behavioral Health Information Notice (BHIN) 20-017, Alcohol and Other Drug Facilities, for more information, on the [DHCS COVID-19 Response website](#).

9. Temporary Suspension of MHPA Program On-site Reviews Update 6/16/21:
Flexibility expires June 30, 2021. DHCS will resume on-site inspections.

Per W&I Code section 5897(d), DHCS is required to conduct MHPA program onsite reviews per county performance contracts to ensure compliance with regulatory, statutory, and contractual language once every three years. Due to the public emergency, the MHPA program onsite reviews have been temporarily suspended. Counties scheduled for a 2020 review will be contacted by DHCS to determine next steps for completing their MHPA program reviews and/or plans of correction.

10. Process to Request Fee Reductions or Waivers

SB 601 went into effect on January 1, 2020. The new law, set forth in Gov. Code Section, 11009.5, authorizes the DHCS to establish a process to reduce or waive any fees required to obtain a license, renew or activate a license, or replace a physical license for display, when a business has been displaced, or experiences economic hardship as a result of an emergency.

DHCS Mental Health Rehabilitation Centers (MHRC), Psychiatric Health Facilities (PHF), Narcotic Treatment Programs (NTP), Driving Under the Influence (DUI) programs, or substance use disorder (SUD) residential and outpatient facilities, **that** have a license or certification issued by LCD, may submit a written request to DHCS for a fee reduction or waiver:

- Identify whether the request is for a reduction or waiver of fee(s);
- Identify the type of fee requested to be reduced or waived (i.e., renewal application fee, relocation fee, etc.) and the specific fee amount being requested to pay if seeking a fee reduction;
- Describe how this reduction or waiver is specific to the COVID-19 emergency;
- Describe the economic hardship or displacement that occurred due to the emergency;
- Identify the provider type (MHRC, PHF, NTP, DUI, SUD Residential or Outpatient);
- Identify the provider number and legal entity name;

Behavioral Health Information Notice No.:
Page 11
June 16, 2021

- Identify the program/facility name;
- Identify the facility physical address;
- Identify the facility mailing address; and
- Identify the Program Director and contact person.

See [BHIN 20-015 MHRC and PHF](#) for additional flexibilities granted to facilities during the emergency on the [DHCS COVID-19 Response website](#).

11. Meetings, Gatherings and Events (The executive order is no longer in effect after June 15, 2021. See [CDPH website](#) for ongoing guidance on gatherings.)

Sincerely,

DHCS COVID-19 Frequently Asked Questions: Behavioral Health

Updated June 16, 2021

Principles:

DHCS recognizes that COVID-19 presents a myriad of challenges. DHCS is working collaboratively with counties, plans, providers, and other stakeholders to ensure we continue to protect access to care and services, while also minimizing COVID-19 spread. See the regularly updated [DHCS COVID-19 Response webpage](#) for more details.

Intake & Assessments

- 1. May telehealth and telephone be used to place and release involuntary holds on individuals (5150 evaluations and 5151 assessments) and are these services billable to Medi-Cal?** (Updated June 16, 2021)

WIC 5150 evaluations and 5151 assessments may be performed by authorized providers face-to-face via telehealth as per WIC 5008(a). This may include releases from involuntary evaluation and treatment, as appropriate. These services are billable to Medi-Cal regardless of whether they are provided in person or through telehealth as long as the individual has Medi-Cal coverage for the service and all Medi-Cal requirements are met.

- 2. Can DHCS clarify that assessment and medical necessity and level of care may also be done by telephone for Drug Medi-Cal Organized Delivery System (DMC-ODS) counties?** (June 16, 2021: updates pending decisions by legislature)

The initial assessment shall be performed either face-to-face or via telehealth (synchronous audio and video, per STC 132.e; IA Section III.B.3.iv). The medical director, licensed physician, or LPHA must then use the information gathered in that face-to-face or telehealth assessment to establish a substance use disorder (SUD) diagnosis, medical necessity, and level of care (LOC) placement. Audio-only modalities (such as telephone) for assessments shall not be used after June 30, 2021.

- 3. Can the consultation between an LPHA and counselor that is needed for level of care determinations also be done by telephone (and not strictly by video)?** June 16 2021 update: Allowable after the public health emergency.

Yes, for DMC-ODS counties, if the initial assessment of the beneficiary is performed by a certified AOD counselor in compliance with the IA, then the medical director/licensed physician/LPHA must evaluate that assessment with the counselor to establish an SUD diagnosis, medical necessity, and a LOC placement. Nothing in the Standard Terms and Conditions (STCs) or Interagency Agreement (IA) prevents this consultation with the counselor from being conducted via telephone. Therefore, if the certified counselor completed the initial assessment of the beneficiary in compliance with IA Section III.B.3.iv, then the medical director/licensed physician/LPHA can review the assessment with the counselor through a face-to-face, telehealth, or telephone discussion when establishing the SUD diagnosis, medical necessity, and level of care assignment.

Operational Requirements

4. What services may be provided by telehealth? (Updated 6/16/21)

Services via telephone and telehealth are reimbursable in Drug Medi-Cal State Plan counties, DMC-ODS and for Specialty Mental Health Services. See the [DHCS telehealth website](#) and the [DHCS Telehealth FAQ](#).

5. Can individual counseling services be provided via telehealth and telephone? (Updated 6/16/21)

Individual counseling services can be provided via telehealth and telephone in DMC State Plan counties, DMC-ODS counties and for Specialty Mental Health Services.

6. Can group counseling services be conducted via telehealth and telephone? If so, does the 12-client limit remain in place? (Updated 6/16/21)

Group counseling services can be provided via telehealth and telephone in DMC State Plan, Drug Medi-Cal Organized Delivery System and Specialty Mental Health Services. However, providers must obtain consent from all the participants and take the necessary privacy and security precautions, in compliance with HIPAA and 42 CFR Part 2. The 12-client group size limit still applies in both DMC and DMC-ODS counties.

7. Can Mental Health Specialists and staff who will not be licensed, but have AOD Certification, provide a billable telehealth assessment?

An intern, trainee, or waived licensed professional under the supervision of a Licensed Professional of the Healing Arts (LPHA) may perform specialty mental health assessments and subsequent services by telephone, telehealth, or in-person, under supervision of a licensed professional. See [MHSUDS Information Notice 17- 040](#) for details about scope of practice.

8. How can providers ensure their patients do not run out of medications?

Medi-Cal allows patients to fill up to 100 days of non-controlled medications. Narcotic treatment programs can receive exemptions to provide take-home medications for patients who are sick or quarantined. See COVID-19 FAQ: Narcotic Treatment Programs for more detail. Patients receiving buprenorphine products can currently receive 30-day supplies on Medi-Cal.

Utilization limits on quantity, frequency, and duration of medications may be waived by means of an approved Treatment Authorization Request (TAR) if there is a documented medical necessity to do so. See [DHCS pharmacy guidance](#).

Some medications are anticipated to be in short supply due to supply-chain challenges. The [FDA keeps a list of medications](#) in short supply, including some medications for behavioral health conditions. DHCS recommends that providers prescribe 100-day supplies of all chronic medications, and patients may obtain early refills if 75% of the estimated duration of the supply dispensed has elapsed (other than certain medications with quantity/frequency limitations). Pharmacies are required to supply up to 72 hours of prescribed medications in an emergency and may provide the emergency supply without an approved TAR.

Medi-Cal allows for, and reimburses, mail order pharmacy providers enrolled as pharmacy providers in the Medi-Cal program.

9. Can controlled substances be prescribed over the phone?

This is a federal, not state, issue. [SAMHSA released guidance](#) that an initial evaluation by telehealth or telephone is allowed for buprenorphine during the emergency. The [DEA COVID-19 website](#) addresses all other controlled substances, which include sedatives and stimulants, under telemedicine. Practitioners can start a new controlled medication prescription by telephone for a patient who is already under their care by telephone. However, if a patient is new to the provider, controlled medications cannot be provided by telephone (other than buprenorphine). For patients new to the provider, prescribing controlled medications can only be done by live video or telemedicine.

10. How can providers maintain services in the face of staff shortages? Updated 6/16/21: Flexibilities expire June 30, 2021.

DHCS anticipates that staff illness and quarantine may create challenges for provider organizations. DHCS encourages providers to do contingency planning to ensure that patients are able to access needed care. DHCS provides specific guidance in the COVID-19 [Behavioral Health Information Notice 20-009](#).

11. How do counties access the American Society of Addiction Medicine (ASAM) training modules referenced in the Intergovernmental Agreement?

All ASAM trainings funded by DHCS include the required modules. Counties may, however, purchase the modules from ASAM to facilitate provider training.

Client Signatures, Consents and Privacy

12. Does DHCS have any guidance for counties on the expectation for client signatures on release of information (ROI), consent forms, or notices of privacy practices if services are delivered exclusively by telephone or telehealth? Updated June 16, 2021.

Consent may be documented verbally if obtained by telehealth or telephone.

13. May providers share SUD diagnosis information during this emergency?

Yes. The Substance Abuse and Mental Health Services Administration (SAMHSA) issued [new guidance](#) which allows providers to share patient SUD diagnosis information that would normally be protected under 42 CFR Part 2 in instances of a bona fide medical emergency. Usage of the medical emergency exception must be documented by providers.

14. When the emergency ends, does DHCS expect that counties will go back and obtain treatment or client plan signatures for clients that are still in treatment? (Updated 6/16/21)

DHCS will remove the signature requirement on the client plan when CalAIM is implemented in 2021. In the meantime, when beneficiaries are unavailable to sign their client plans, Section 1810.440(c)(2)(B) of Title 9 of the California Code of Regulations

applies, which gives an exception to the signature requirement when the client is unavailable.

Documentation

15. Does DHCS have specific expectations for documentation of services delivered by telephone or telehealth?

Counties should continue following current documentation requirements unless informed otherwise by DHCS. The IA (specifically, Exhibit A, Attachment I A2 15. "Progress Notes") specifies the documentation requirements in the DMC-ODS.

16. Is documentation of patient consent for telehealth or telephone services required during the emergency? (Updated 6/16/21)

DHCS telehealth policy allows consent to be documented verbally during a telehealth encounter.

17. What about required signatures on other intake requirements, like admission agreements or consent for treatment forms? (Updated 6/16/21)

See response to question 14. After September 30, 2021, Cal. Code. Regs. tit. 9 § 852 goes back into effect, which requires providers to ask for a patient signature on a signed informed consent document for receipt of anti-psychotic medications. Beneficiaries should date the document when the wet signature is provided, and Counties must document in the beneficiary's medical record the reason for the late signature. Counties are not expected to obtain signatures on these documents for beneficiaries that started and discontinued services during the COVID-19 public health emergency, or who discontinued services during the emergency period. During the COVID-19 public health emergency, Counties must document in the beneficiary's medical record the reason for the missing or late signature.

Data Reporting

18. Can DHCS clarify current expectation for the various county data reporting requirements? Updated 6/16/21: Flexibilities on data reporting rescinded as of June 30, 2021.

Reporting requirements during the COVID-19 public health emergency are as follows:

- Consumer Perception Survey - The next scheduled survey period is May 2020. Due to the COVID-19 emergency, DHCS has rescheduled the survey collection period to June 22-26, 2020.
- Client and Services Information System (CSI), Data Collection and Reporting System (DCR), California Outcomes Management System (CalOMS), and American Society of Addiction Medicine (ASAM) Level of Care - DHCS recognizes that there may be delays in submitting data. However, due to federal reporting requirements, DHCS is not able to waive data reporting requirements for CSI, DCR, CalOMS, and ASAM Level of Care Data.
- Child and Adolescent Needs and Strengths (CANS) & Pediatric Symptoms Checklist – 35 (PSC 35) - During this time of COVID-19, DHCS recognizes that there may be limitations in staff time as some staff are being redirected due to the emergency. As such, the CANS should be completed in partnership with placing agencies via telehealth or telephone. Furthermore, although IN 20-003 requires counties to include the CIN number with CANS and PSC-35 submissions to the FAST system, due to COVID-19, DHCS will extend the implementation of the mandatory CIN requirement to July 1, 2020.

Provider Enrollment

19. Can DHCS issue written clarification explaining whether and how the Provider Enrollment Division (PED) emergency bulletin, which outlines an expedited emergency enrollment process for Medi-Cal FFS providers, applies to DMC providers with pending applications for DMC site certification? Can providers with pending DMC certifications begin claiming for DMC/DMC-ODS services if they follow the procedure in the bulletin for FFS providers? If so, how does this impact the status of their existing DMC application? Are there specific steps they'd need to take after the emergency enrollment period passes)? Update 6/16/21: Flexibility **rescinded** as of June 30, 2021.

DMC providers with DMC applications currently under review with PED can additionally apply for emergency enrollment pursuant to the [Guidance for Emergency Medi-Cal Provider Enrollment](#). Their pending non-emergency enrollment DMC applications will not be impacted. Moreover, providers enrolled pursuant to the provider bulletin will be automatically deactivated at a later date based on the duration of the emergency. If a provider would like to continue their enrollment as a DMC provider, they will need to submit a completed DMC provider application. If a provider currently has a pending

non-emergency DMC application, it will continue to be reviewed in the order it was received, separately from any DMC application received pursuant to the emergency provider bulletin.

20. Will PED's Guidance for Emergency Medi-Cal Provider Enrollment apply to Specialty Mental Health? Update 6/16/21: Flexibility rescinded as of June 30, 2021.

Pursuant to section 1135 of the Social Security Act (1135 Waiver) CMS has waived the enrollment requirement for SMHS providers to undergo an onsite visits per Code of Federal Regulations (CFR), title 42, section 455.432(a). Moreover, part of the enrollment process for SMHS providers includes the requirement for the provider to obtain a fire clearance prior to the onsite visit, as specified in the county Mental Health Plan (MHP) contract. As stated under the MHP contract, Exhibit E, page 12 of 16, Paragraph 7(B), DHCS may use policy letters to provide clarification and instructions to its contactors regarding implementation of mandated obligations pursuant to State and federal statutes and regulations.

In light of the many challenges counties are facing due to the COVID-19 crisis, including the inability to obtain a fire clearance, the DHCS is waiving the Medi-Cal Certification requirements for an onsite review and a fire clearance, during the approved 1135 Waiver period. During this time, providers may be certified using the streamlined procedures. See updated [Behavioral Health Information Notice 20-009](#) for more details.

21. Counties and providers have asked about fingerprinting requirements and noted that they can't do fingerprinting right now as facilities are closed. Is fingerprinting part of the provider enrollment background check process that can be waived? Is it also something that DHCS monitors outside of provider enrollment? If so, can DHCS clarify the expectation for providers who are still trying to obtain fingerprints from staff? Update 6/16/21: Flexibility rescinded as of June 30, 2021.

As the provider bulletin states, providers who enroll using this method will not be subject to the following requirements: submission of an application fee, designation of screening levels, and submission of a completed Medi-Cal Provider e-Form Application, which includes a completed Medi-Cal Disclosure Information Section and Medi-Cal Provider Agreement. This includes application requirements such as fingerprints required for providers with moderate or high risk designations. However, this only applies to emergency enrollment pursuant to the provider bulletin. If a

provider seeks regular enrollment in Medi-Cal, they are subject to the existing statutory and regulatory requirements for their provider type.

The requirements of Welfare and Institutions Code §5405 that individuals employed in MHRCs and PHFs undergo criminal background checks, including fingerprinting, remain in effect; however, DHCS may grant program flexibility when a provider proposes to use alternate concepts to comply with existing MHRC and PHF staffing regulations. Facilities requesting program flexibility should describe the alternate concepts needed to meet the intent of the above requirement and submit it to MHLC@dhcs.ca.gov for consideration.

Additionally, to facilitate processing of CBC clearances during the COVID-19 pandemic, DHCS has instituted the following:

- DHCS Mental Health Licensing Section will work collaboratively with facilities to process a Criminal Record Approval Transfer Notification (CRATN). An additional criminal background check (CBC) is not required if an individual or licensee has received a prior CBC clearance while working in a licensed facility and wishes to transfer to another similar facility. The individual or licensee who wishes to obtain a CRATN shall complete the DHCS Form 1818.
- An online criminal background check may be considered with the submission of [DHCS Form 3007](#) and [DHCS Form 3085](#).
- Once the DHCS Form 1818 has been submitted to DHCS, the individual with a DHCS-issued CBC clearance is allowed to start working in a PHF or MHRC.
- As was the case before the COVID-19 crisis, a new employee who has submitted fingerprint images/live scans can start working in a PHF or a MHRC while awaiting the CBC clearance as long as the employee is under constant supervision.
- If the individual will solely be providing services through telehealth, and will have no direct contact with the patient, then a criminal background check will not be required.

Licensing and Certification

22. Can DHCS waive the requirement that SUD treatment programs maintain a minimum of 30% licensed staff?

DHCS does not require AOD treatment programs to maintain a minimum of 30% of licensed staff. Pursuant to California Code of Regulations Title 9 Chapter 8 Section

13010, at least 30% of staff providing counseling services in all AOD programs shall be licensed or certified.

23. Can individual providers receive a waiver to operate above their licensed capacity? Update 6/16/21: Flexibility **rescinded** as of June 30, 2021.

To address the issue of insufficient AODSUD treatment bed capacity, the Licensing & Certification Division will expedite review and approvals of requests for increases in treatment bed capacity. Residential SUD treatment facilities seeking to increase treatment bed capacity shall electronically submit a Supplemental Application (DHCS 5255) along with a Facility Staffing Data form (DHCS 5050) for review to LCDQuestions@dhcs.ca.gov. DHCS shall also review and approve facility requests to temporarily operate above their licensed treatment bed capacity as long as the total bed capacity does not exceed the capacity allowed in the approved facility fire clearance.

For any specific operational flexibilities, including the need to operate above the licensed capacity for MHRCs and PHFs, requests may be made by email to: MHLC@dhcs.ca.gov. The request shall include the following written components:

- Description of alternate concepts, methods, procedures, techniques, equipment, and personnel qualifications.
- The reasons for the program flexibility request and justification that the goal or purpose of the regulations would be satisfied.
- The time period for which the program flexibility is requested.
- Policies and Procedures to implement the provisions of the program flexibility which demonstrate that this flexibility meets or exceeds provisions for patient care and safety.

24. What are the licensure requirements to allow SUD residential programs to relocate into new locations on an emergency basis?

In accordance with California Code of Regulations Title 9 Chapter 5 Section 10527(c), facilities that move operations to new locations shall submit a Supplemental Application (DHCS 5255) within 60 days from the date of the move.

25. Are facilities able to provide treatment or recovery services outside the facility service location if there are concerns about providing treatment at the location due to COVID-19? Update 6/16/21: Flexibility **rescinded** as of June 30, 2021.

In some circumstances, DHCS shall consider and may allow facilities to provide treatment or recovery services off-site for any concerns related to COVID-19. Providers should contact their Licensing Analyst for questions. [See COVID-19 Response website](#) for information notices for treatment facilities.

General COVID-19 Information (update 6/16/21: providers should refer to the CDC and CDPH websites for updated information).

COVID-19 FLEXIBILITIES

Overview of COVID-19 Flexibilities to be Rescinded

June 2021

TELEHEALTH

- **DMC-ODS - Initial clinical diagnostic assessment conducted by phone - Ending 6/30/21**
 - Consultation between an LPHA and counselor that is needed for level of care determinations can be done by telephone (and not strictly by video)
- **All other services, except site specific (e.g., crisis stabilization, residential treatment), delivered via telehealth and telephone are reimbursable**
 - Location is not restrictive
- **5150 Evaluations & 5151 Assessments**

FLEXIBILITIES **ENDING 6/30/21**

- **Administrative penalties** regarding unauthorized access or disclosure of health information during good faith use of telehealth technology
- **Oversight requirements**
- **Emergency enrollment in Medi-Cal for SMH providers** – On-site Review and Fire Clearance
- **Criminal Background Check flexibilities**
- **MHSA Program On-Site Reviews**

PHF AND MHRC FLEXIBILITIES

ENDING 6/30/21

LPCC included in
LMHP classification

On-site biennial
licensing
inspections

Expedited licensing
application process
including at
alternate sites

Increase in existing
licensed capacity

AOD PROGRAM FLEXIBILITIES

ENDING 6/30/21

- Emergency initial licensure of AOD residential treatment facilities
- Application Extensions for licensed/certified AOD residential and outpatient treatment facilities
- Request fee reductions or waivers license fees
- Initial and biennial on-site inspections of residential and outpatient treatment facilities
- Expedited review and approval for increased bed capacities in AOD residential and treatment facilities
- Drug Medi-Cal Certification - Provisional/temporary enrollment of providers

FLEXIBILITIES ENDING 9/30/21

Flexibility	End Date
Waiving signature requirements for psychiatric medications	9/30/21
Additional time to complete AOD counselor certificate requirements	9/30/21

Eleven Enumerated “COVID Flexibilities” Addressed in MHSUDS 20-009 (Updated 6/16/2021)

This newsletter is in reference to the [BHIN 20-009](#), updated June 16, 2021.

https://www.dhcs.ca.gov/Documents/CSD_YV/BHIN/BHIN-20-009-COVID19-Guidance-and-FAQs.pdf

1. Behavioral health services via telephone and telehealth
2. 5150 evaluations and 5151 assessments
3. Waiving signature requirements for psychiatric medications
4. Additional time to complete counselor certification requirements
5. Adapting oversight requirements to prioritize patient needs and accommodate workforce challenges
6. Emergency enrollment in Medi-Cal for mental health providers
7. Access to prescription medications
8. Alcohol and other drug (AOD) residential and outpatient treatment facility flexibilities
9. Temporary suspension of Mental Health Services Act (MHSA) program onsite reviews
10. Process to request fee reductions or waivers
11. Canceling meetings and gatherings to prevent COVID-19 transmission.

MHSUD #1, #2 & #3: Telephone & Telehealth

MHSUD 20-009 (Updated 6/16/2021)	SERVICES	
	Substance Use Disorder (SUD)	Mental Health (MH)
What services are available for telehealth?	<ul style="list-style-type: none"> • Initial clinical diagnosis assessment (telehealth only, not telephone) • Determination of medical necessity (telehealth only, not telephone) • LOC (telehealth only, not telephone) • Individual counseling services (telehealth & telephone OK) • Group counseling services (12-client limit remains in place) (telehealth & telephone OK) 	<ul style="list-style-type: none"> • Intake/Assessment • Individual counseling services • Group counseling services • Crisis intervention services • Targeted case management • Therapeutic behavioral services • Intensive care coordination • Intensive home-based services • Medication support services
What services must be provided in person?	<ul style="list-style-type: none"> • Residential Services (not all components need to be provided in-person) 	<ul style="list-style-type: none"> • Crisis Stabilization • Day Rehabilitation • Day treatment intensive • Crisis residential treatment services • Adult residential treatment

MHSUD 20-009 (Updated 6/16/2021)	SERVICES	
	Substance Use Disorder (SUD)	Mental Health (MH)
Are additional billing code required when submitting claims?	Modifiers are required, effective 11/1/2021: • Televideo service: 02 GT • Telephone service: 02 UB • Store and forward (e-consult in DMC ODS): 02 GQ	
Are patient signatures required for Psychiatric Medications?	No, verbal consent (in lieu of written consent) is acceptable. Note that after September 30, 2021, Cal. Code. Regs. tit. 9 § 852 goes back into effect, which requires facility-based providers to ask for a patient signature on a signed informed consent document for receipt of anti-psychotic medications (see page 16 of the MHSUDS)	
BHS' Existing Guidance to Providers: <ul style="list-style-type: none"> • BHS prefers providers to use HIPAA-compliant Zoom accounts • Per Federal HHS, only non-public facing remote communication products could be used. <ul style="list-style-type: none"> ○ Never use public-facing applications such as Facebook Live, Twitch, TikTok, and similar video communication applications ○ During the Federal Public Health Emergency, you can use the following when you obtain the proper informed consent: Apple FaceTime, Facebook Messenger video chat, Google Hangouts video or Skype ○ Providers are encouraged to notify patients that these third-party applications potentially introduce privacy risks, and providers should enable all available encryption and privacy modes when using such applications. 		

MHSUD 20-009 (Updated 6/16/2021)	5150	5151
Billable to Medi-Cal?	Evaluations	Assessments
Can be performed via telehealth (with video capacity)?	Yes	Yes
Can be performed via telephone (without video capacity)?	No	No

MHSUD #4. AOD registered counselors take additional time to complete the counselor certification requirements?

- This flexibility will expire on September 30, 2021.

MHSUD #5: What is the standard for adapting oversight requirements to prioritize patient needs and accommodate workforce challenges?

- The following flexibilities have ended as of June 30, 2021: on-site audits and site reviews to virtual desk audits, postponing audits and provider reviews that are not time-sensitive, deferring additional training or reporting requirements, and waiving minimum requirements for clinical hours per week that are above and beyond DHCS

requirements (e.g., for residential facilities), to accommodate for staff shortage. **DHCS will resume on-site inspections.**

MHSUD #6. Are there additional flexibilities for Emergency enrollment in Medi-Cal for mental health service providers?

- **This flexibility has ended. DHCS will resume on-site inspections** and will be reaching out to facilities to schedule these over the next six months.

MHSUD #7. Access to prescription medications (Note—this item was not updated in the 6/16/2021 MHSUD IN, so this flexibility continues)

- Medi-Cal allows prescribing and dispensing of 100-day supplies of medications, including certain controlled medications. Early refills are allowed, as long as 75% of the expected duration has occurred.

MHSUD #8. Alcohol and Other Drug (AOD) residential and outpatient treatment facility flexibilities

- This flexibility has expired on June 30, 2021.
 - DHCS has granted flexibility to Residential and Outpatient Treatment Facilities to allow ongoing access during the emergency.
 - Previously, SUD residential programs may relocate to new locations on an emergency basis and submit a Supplemental Application (DHCS 5255) within 60 days from the date of the move.
 - For additional information, please refer to [BHIN 20-017](#).

MHSUD #9. Temporary Suspension of MHSA Program On-Site Reviews

- This flexibility has expired on June 30, 2021.
 - DHCS will resume on-site inspections.
 - DHCS is required to conduct MHSA program onsite reviews per county performance contracts to ensure compliance with regulatory, statutory, and contractual language once every three years.

MHSUD #10. Process to Request Fee Reductions or Waivers

- No change on this item.
 - DHCS to establish a process to reduce or waive any fees required to obtain a license, renew or activate a license, or replace a physical license for display, when a business has been displaced, or experiences economic hardship as a result of an emergency.

MHSUD #11. Canceling meetings and gatherings to prevent COVID-19 transmission

- This flexibility has expired on June 30, 2021.
 - DHCS will no longer limit unnecessary meetings, gatherings and events, and convert all possible meetings into virtual (live video or telephone) events.

Ten Pages of FAQs from MHSUDS 20-009 (pages 12 to 21)

Please read all ten pages of the FAQ—below, we have summarized key points

FAQ #s 12, 14, 16 & 17

Signatures		
Updated 6/16/2021	Substance Use Disorder (SUD)	Mental Health (MH)
Is a consent required for providing telehealth?	No (see FAQ 16)	No (see FAQ 16)
	<ul style="list-style-type: none"> Inform the beneficiary to share the risks and benefits of telehealth services It is best practice obtain the client's written consent But if written consent is not possible, the clinician can obtain verbal consent and document it in the client's chart, including that obtaining a signed consent was not possible 	
When the emergency ends, does DHCS expect that counties will go back and obtain treatment or client plan signatures for clients that are still in treatment?	No (see FAQ 14)	No (see FAQ 14)
	<ul style="list-style-type: none"> DHCS expects that they will remove the signature requirement on the client plan with CalAIM is implemented in 2021. All providers should complete service documentation in the patient treatment file whether the service is provided in person, via telephone or telehealth. During the COVID-19 public health emergency, Counties must document in the beneficiary's medical record the reason for the missing signature. For Specialty Mental Health, if the client is unavailable to sign, note this in the chart and obtain the signature at their next regularly scheduled in-person appointment once the public health emergency has ended. Signatures should not be back-dated, but rather indicate the actual date signed. 	
Release of Information (ROI), consent forms, notices of privacy practices	No (see FAQ 12)	No (see FAQ 12)
	<ul style="list-style-type: none"> DHCS did not specifically request waivers of signatures on these items Consent may be documented verbally if obtained by telehealth or telephone.
