

Cannabis State Legalization Task Force

DOCUMENT A

Meeting and Recommendation Drafting Instructions

1. General Process

The San Francisco Cannabis State Legalization Task Force was created as an advisory body for the City’s policymakers should adult cannabis use become legalized in the future. The Task Force Subcommittee and Full Task Force meetings are therefore designed to complement each other and lead the Task Force towards fulfilling this goal—i.e. the development of recommendations on important cannabis adult use legalization issues.

- A. Subcommittee Meetings:** During these meetings, Task Force Members will have in-depth discussions in each major topic area, i.e. (1) public safety and social environment, (2) land use, and (3) regulation and city agency framework. These discussions allow important issues and ideas to surface, and these will then be used to create the recommendation development tools and process for the subsequent Full Task Force Meeting.
- B. Full Task Force Meetings:** During Full Meetings of the Task Force, the Task Force will develop recommendations related to one of the above topic areas. With regard to Public Safety and Social Environment, the upcoming Full Meeting will be divided into two main activities:
 - Small workgroups will **DRAFT** recommendations
 - Full Task Force will **FINALIZE** recommendations via consensus

2. Recommendation Drafting Process

- A. Small workgroups will DRAFT Recommendations:** During the first half of the Full Meeting, Task Force Members will be randomly assigned into three workgroups to develop recommendations in one of the below areas. Spotlight Panelists from the Public Safety and Social Environment Subcommittee Meeting will serve as facilitators for each workgroup.

The main discussion areas for each workgroup are as follows:

Workgroup 1: Public Safety

- a. Driving Under the Influence
- b. Neighborhood Safety
- c. SFPD Enforcement and Training Priorities

Workgroup 2: Public Consumption

- a. Meaning of the word “public”
- b. On-site consumption per AUMA
- c. Overconsumption and encouraging safe and responsible use

Workgroup 3: Youth Access and Exposure

- a. Education
- b. Preventing Sales to Minors
- c. Advertising
- d. Diversion Programs and Decriminalization Options for Youth

Cannabis State Legalization Task Force

DOCUMENT A

Meeting and Recommendation Drafting Instructions

Each workgroup will conduct the following exercise:

- **Identify** one group member to take notes, one group member to keep time and one group member to report-out on workgroup recommendations during the full Task Force discussion.
- As a group and using **consensus-building**, discuss and draft recommendations from the assigned areas. For each recommendation, note the:
 - recommendation type: e.g. policy, programmatic, etc.
 - rationale
- **Review** all the recommendations.
- **Write** the draft recommendations on a flip chart sheet to present during the subsequent full Task Force discussion. Each workgroup will be provided with a flip chart sheet and the appropriate writing tools.

B. Full Task Force will FINALIZE Recommendations: After the workgroups have completed the process of drafting recommendations, the full Task Force will then come together during the latter half of the meeting to finalize each workgroup's recommendations. During this process, a member of each workgroup will present the recommendations to the Task Force and the Task Force Chair will lead the group in editing and finalizing the recommendations via consensus. This will give all Members an opportunity to reflect upon the recommendations of other workgroups and respond. Thus, at the end of the meeting, the Task Force will have a set of consensus-driven Public Safety and Social Environment recommendations.

Important Note: During the course of the year, subsequent conversations related to Land Use and City Agency Framework may affect The Task Force's perspectives on Public Safety and Social Environment. There will therefore be an opportunity to further edit and prioritize these and all other recommendations in November, per the Task Force meeting schedule.

3. Recommendation Drafting Tools

Tools have been developed that should aid the Task Force in drafting and finalizing Public Safety and Social Environment recommendations. Each of these tools is described below. The documents are labeled, color-coded and track each other, so it is suggested that Task Force Members review each document in this order:

DOCUMENT A – Instructions (THIS DOCUMENT): explains the process for making recommendations, the tools that have been created to achieve this goal, and provides drafting tips and guidelines that may be helpful to Task Force Members.

Cannabis State Legalization Task Force

DOCUMENT A **Meeting and Recommendation Drafting Instructions**

- *How to Use This Document:* It is suggested that Members thoroughly review this document before all others and refer to it for critical information about the process the Task Force will use for drafting recommendations.

DOCUMENT B - Recommendations Framework: organizes Task Force Members' thoughts and ideas from the Subcommittee Meeting and previous meetings into discrete areas under which recommendations will be drafted. For example, at the Subcommittee Meeting, Task Force Members discussed the issue of education for youth. The Framework document therefore outlines this as a possible area for making recommendations and includes discussion questions to aid Task Force Members in making a recommendation if they so choose.

- *How to Use This Document:* It is suggested that Task Force Members use this document to organize discussion around the issues and as a checklist to ensure that all issue areas have been discussed. The questions included in the document define the suggested scope of any proposed recommendations to ensure that discussions are manageable and that there is sufficient time to discuss all the important areas within the allotted timeframe.

DOCUMENT C – Adult Use of Marijuana Act (AUMA) Provisions Table: As discussed in previous meetings, the AUMA ballot initiative is the policy backdrop for Task Force discussions. It will therefore be important for recommendations to be responsive to the initiative and build upon its provisions. The AUMA Provisions Table tracks the issues outlined in the Framework Document and describes the AUMA provisions related to each.

- *How to Use this Document:* Along with the text of the AUMA and previous knowledge of its provisions, Task Force Members should use this document as a reference tool to ensure that recommendations are responsive and non-duplicative.

DOCUMENT D - Recommendation Grid(s): There are different types of recommendations that the Task Force may develop, e.g. policy-focused recommendations, programmatic, etc. The Recommendations Grid outlines these types and prompts Members to think about a particular issue in different ways. There are three grids in the meeting packet – one for each recommendation development area: (1) Public Safety; (2) Public Consumption; (3) Youth Access and Exposure.

- *How to Use this Document:* This is a personal brainstorming tool for Members to use in organizing their own thoughts and ideas during the small workgroup sessions and/or in preparation for the meeting. It is suggested that Task Force Members use it to take notes and/or encourage themselves and other Members to consider different types of recommendations and the rationale for each.

Together, Documents A - D are meant to aid Members in **effectively** and **efficiently** drafting recommendations within the allotted time frame.

Cannabis State Legalization Task Force

DOCUMENT A Meeting and Recommendation Drafting Instructions

Tools – Quick Reference Guide

Document	Description	Purpose
DOCUMENT A	Instructions – explains the process for making recommendations	Refer to it for critical information about the process and tools
DOCUMENT B	Recommendation Framework - organizes Task Force Members' thoughts and ideas from the Subcommittee Meeting into discrete areas for recommendation development	Use this document: - to organize discussion around the issues - as a checklist to ensure that all issue areas have been discussed
DOCUMENT C	AUMA Provisions Table – outlines relevant Public Safety and Social Environment AUMA provisions	Use as a reference tool
DOCUMENT D	Recommendation Grid - outlines possible recommendation types and prompts Members to think about a particular issue in different ways	Use as personal brainstorming tool

4. Tips and Guidelines for Drafting Recommendations:

A. In general, recommendations should be:

- **RELEVANT** (*responsive to an issue or need within the Public Safety and Social Environment area*)
- **ACTIONABLE** (*makes use of action words and is implementable with available resources, stakeholders, time*)
- **CLEAR** (*easily understood by other stakeholders and members of the public*)
- **SPECIFIC** (*identifies the scope and outcome*)

Cannabis State Legalization Task Force

DOCUMENT A Meeting and Recommendation Drafting Instructions

The below is an example of possible recommendation format.

EXAMPLE: Increase opportunities for community engagement based on principles of transparency, inclusion and consensus-building that target residents and businesses and can be communicated to policymakers.

- B. Consensus Principles:** Recommendations should be reflective of the following consensus principles identified during the Subcommittee Meeting:
- i. Task Force will use an evidence-based approach to its work.
 - ii. Task Force will design recommendations that protect youth.
 - iii. Secondhand smoke exposure protections are important.
- C. Rationale:** As noted in the **Recommendation Grid (DOCUMENT D)**, each recommendation should have a rationale that describes the reason(s) it is important.
- D. Consensus-building:** The Task Force has agreed to rely on consensus-building in developing recommendations. This involves seeking the consent of all Task Force Members and thereby reaching an acceptable resolution all Members are comfortable with, even if it is not the preferred option of each individual. Workgroups and the full Task Force should aim to practice this model in drafting and finalizing recommendations.
- E. Suggested considerations for drafting recommendations:**
- i. Using information from-
 - personal knowledge and experience
 - issue brief
 - spotlight panel
 - previous Task Force discussions
 - ii. What are the desired outcomes in each area and sub-area?
 - iii. What recommendations would lead to these outcomes?
- F. Scope of Recommendations:** Task Force Members are free to develop recommendations in areas that are not already noted in the documents. But, before drafting such a recommendation, consider the following questions:
- i. Is the proposed recommendation relevant to Public Safety and Social Environment, or is it better discussed at a future meeting? Is the issue already noted in the “Parking Lot” section reserved for such issues?
 - ii. Is the proposed recommendation reflective of the aforementioned consensus principles?
 - iii. Is the proposed recommendation already addressed elsewhere – e.g. AUMA?

Cannabis State Legalization Task Force

DOCUMENT A

Meeting and Recommendation Drafting Instructions

- G. Number of Recommendations:** There is no number of recommendations the workgroups and the Task Force should strive for. The important thing is to thoroughly discuss the issues based on the tools provided.
- H. Importance of AUMA Provisions:** It is important to draft recommendations with the relevant AUMA provisions in mind. In doing so, some questions to consider in the drafting process are:
- i. Is the issue we are discussing already addressed in the AUMA? How?
 - ii. Is the related AUMA provision sufficient or should the Task Force and City consider additional issues or concerns?
- I. Recommendations Grid as brainstorming tool:** The **Recommendation Grid (DOCUMENT D)** is meant to help Members organize their ideas and encourage thinking in different areas, so not every box in the grid needs to be filled in.

Cannabis State Legalization Task Force

DOCUMENT B
Recommendations Framework

Public Safety	Public Consumption	Youth Access and Exposure
<p>1. Driving Under the Influence</p> <ul style="list-style-type: none"> a. Is there a need for further policy guidance on this at the local level? b. If so, what is the purpose and outcome of such guidance? c. Who is the audience? d. What stakeholders should be involved in developing this guidance? <p>2. Neighborhood Safety</p> <ul style="list-style-type: none"> a. What does it mean for a cannabis business to be a “good neighbor”? b. What tools would ensure this “good neighbor” standard? e.g. policy, guidelines, protocols c. What are 3-5 important considerations and/or topic areas that these tools should include? <ul style="list-style-type: none"> i. For example, standards relating to security, lighting, signage, windows, cash-only operations <p>3. SFPD Enforcement and Training Priorities</p> <ul style="list-style-type: none"> a. What are 3-5 top considerations for the San Francisco Police Department when it is developing its criminal enforcement and training strategies? 	<p>1. Meaning of the word “public”</p> <ul style="list-style-type: none"> a. When does a “public” space become privatized? b. What would we call such spaces? c. Should there be policy pathways created for consumption in such places? d. In developing recommendations, note these overarching considerations: <ul style="list-style-type: none"> i. Reducing secondhand smoke exposure ii. Existing public consumption laws <p>2. On-site consumption per AUMA</p> <ul style="list-style-type: none"> a. Should the City allow on-site consumption at retail locations? <ul style="list-style-type: none"> i. As part of the recommendation for or against, state the advantages and concerns associated with this AUMA provision. b. If so, consider the three minimum AUMA requirements for on-site consumption at retail locations. If the City does allow on-site consumption, should there be additional requirements or considerations at the local level? <p>3. Overconsumption and encouraging safe and responsible use across the City</p> <ul style="list-style-type: none"> a. Should the City design an approach towards 	<p>1. Education</p> <ul style="list-style-type: none"> a. Should the Task Force consider the City’s education system as a participant in developing cannabis education for schools? b. Are there new or existing models and principles that would be helpful in developing an educational curriculum? c. In developing a curriculum and educational tools, should there be varying approaches for different age groups? Should there be a parental or family-based component to these educational tools? d. What stakeholders should be involved in developing these educational tools? <p>2. Preventing Sales to Minors</p> <ul style="list-style-type: none"> a. Should the City have additional guidelines, rules or requirements designed to prevent sales to minors? <p>3. Advertising</p> <ul style="list-style-type: none"> a. Should the City have additional guidelines, rules or requirements for cannabis-related advertising on public transit or within printed materials?

Cannabis State Legalization Task Force

DOCUMENT B **Recommendations Framework**

Public Safety	Public Consumption	Youth Access and Exposure
	<p>managing overconsumption?</p> <ul style="list-style-type: none">b. What are 3 public health tools that would encourage safe and responsible cannabis use across the City? e.g. education, sobering centersc. With regard to edibles, are there additional safety, dosage and labeling requirements not addressed in the AUMA that the City should consider?d. Should there be special considerations for first-time users? For example, are there parallels with respect to advice or tools given to first time users of a particular medicine that might be applicable?	<p>4. Criminal diversion and decriminalization options for youth</p> <ul style="list-style-type: none">a. Should the City have additional criminal diversion and decriminalization options beyond those noted in the AUMA?

Parking Lot Issues – these refer to points raised at previous meetings that would better fit the land use and/or city agency framework conversations and will be discussed at a future Task Force meeting. Those identified so far:

Land Use Parking Lot Issues: zoning, deliveries, Alcoholic Beverage Control Act comparison to AUMA

Regulation and City Agency Framework Parking Lot Issues: licensing, agency responsibility for enforcement and regulatory structure

Adult Use of Marijuana Act (AUMA) Public Safety and Social Environment Provisions Table

Note 2: State Standards vs. Local Standards

AUMA pg. 39 – Business and Professions Code Sec. 26201 states:

Any standards, requirements, and regulations regarding health and safety, environmental protection, testing, security, food safety, and worker protections established by the state shall be the minimum standards for all licensees under this division statewide. A local jurisdiction may establish additional standards, requirements, and regulations.
